INTRODUCTION:

The Milch Livestock Improvement Society (MLIS) is a Non-Governmental Organization registered under Societies Registration Act-1860 in January, 2000 with its headquarter at Solan (H.P.). The Society has at present 17500 primary members who are from farming families. Housewives due to their major role in livestock management and agriculture has particularly come forward to enroll themselves as the members of the society and as such 80% of the total membership are from the housewives section. Major clusters of members have been grouped into Self-Help groups (SHGs) whose strength has reached the figure of 429 so far. 98 members give representation as Councilors who are the members for the Governing Council of the Society. The Block-wise representatives (Councilors) constitute their own block level bodies out of which three representatives of the block council represent in the Central Executive Body. The central office has various functionaries to work on various assignments. A team of ten resource persons and other technical faculties are working for breeding, management and awareness problems faced by the members in the field of agriculture and livestock rearing. In addition, each development block has two motivators to work among the various rural groups for the implementation of the dairy and agricultural oriented operations

The Society has sustainability and productivity its main objectives so that the level of production and quality of produce does not deteriorate due to lack of regular follow-up. For this, a corpus fund has been generated under centrally sponsored Integrated Innovative Dairy Development (IIDD) & Milch Livestock Improvement (MLIP) projects whose annual interest is the sustenance fund with MLIS to implement the post project sustenance annual action plans every year so that the beneficiaries may continue to get all the basic supplies & services at their door steps which they were getting under the above projects in a sustained manner without further financial aid from the Govt.

The Society is also running A Milk Pasteurization & Packaging Plant of 5000 litres capacity at Jaunaji Road, Solan with 4-milk collection centers at different places of the district established under MLIP to provide marketing facilities to the milch livestock breeders for the sale of milk and milk products. The local farmers around the plant catchment are directly bringing the milk to the plant for further processing, packaging and sale. This has brought encouraging results. At present, 2000-2500 liters milk is being collected to the Milk Plant and being sold through the sales centres and about 450-500 Milch livestock holders are getting the facility for sale of milk and milk products. Efforts are ahead to bring the milk plant to its full capacity by extending the marketing facilities to the uncovered areas in the vicinity of the Plant and gradually to the entire district in a planned manner.

In addition to above the society has already taken up the supply of balanced feed, dry fodder, mineral mixture, roots/seeds/cuttings of high yielding grasses and fodder plants to Milch livestock breeders. The society has also taken up the management of dry cattle in its centre to revive them into re-productive cycle as well as dung & urine for production of vermi culture and vermi compost. This arrangement where on one side eliminating the public grievance caused by these unproductive dry animals and on the other side are made self viable in sustainable manner.

Besides above, the society is imparting trainings in the field of Livestock Management, Watershed Management, Environment Conservation and other agri-oriented economic packages. These programmes being sponsored by the Department of Animal Husbandary, Rural Development, Social Welfare, Mid Himalayan Watershed Development Project and by other Governmental & Non-Governmental Organizations.

The society has also undertaken the 3-months training course in Artificial Insemination to the 10th pass class IV employees of the Department of Animal Husbandry, H.P. Government and 241 employees were imparted training in 4-batches.

To give further boost and strength to the above initiatives, the Society has established a Centre of Excellence at a farm measuring 157 bighas and 7 biswas of land situated at village Kotla Barog in Tehsil Pachhad district Sirmour (HP) which has been given to the Society on the basis of Memorandum of Understanding (MOU) by the Department of Animal Husbandry. This farm is serving as a Nodal Institution to impart training in latest packages in practical farming techniques in the fields of agri.vet.based subjects responsible for maintenance of economic sustainable status. The Society has already established demonstrative units on dairy, goat-sheep rearing; fodder production, vermi compost, bio- gas and roof water harvesting etc. The Society is on way to establish demonstrative units on other fields like poultry, pisciculture, bee

keeping, mushroom production and other agricultural practices at the centre. The centre covers the farmer groups from whole of the state and other adjoining states also having similar agro-climatic conditions.

VETERINARY PHARMACISTS TRAINING COURSE

The Himachal Pradesh Government has approved a "Veterinary Pharmacists Training Course"(2-years diploma course) to be run by the Milch Livestock Improvement Society (MLIS) vide letter No.AHY-F(5)-5/93-part dated 26-08-2008 under normal terms and conditions with 100 seats. THEORY An overview of animal behavior, Common tools used for animal control,

methods of restraint and handling of animals, Colors and markings of animals: Dentition
Hoof trimming in bovine; Preparing animals for show/animal fair.

PRACTICAL: Dentition, Colors, Markings, Identification, Hoof trimming, Restraint and
handling of animals, Preparing animals for show/animal fair

3. Elementary Animal Nutrition (AS-113) (2+1)

THEORY Principle of animal nutrition, Digestive system, Nutritional importance of
carbohydrates, lipids, proteins, vitamins, minerals and water; Common feeds and
fodders; Scientific feeding and feeding schedule for different categories of livestock;
Anti nutritional factors; Feed additives, Hay and Silage making; Precautions in the
storage of feed and fodder.

PRACTICAL: Identification and classification of feed and fodder, Sampling and
preparation of feed, Preparation of hay and silage; Up gradation of roughages;
Preparation of concentrate.

4. Basic Computer Application (AS-114) (0+2)

PRACTICAL Knowledge about the computer accessories. Use of computer in
handling and presenting veterinary and livestock data. Working in Windows operating
system. Working with MS Word. Spreadsheets using MS Excel Graphics and MS Power
Point. Internet and World Wide Web. E-mail and internet services; Computer viruses,
antivirus.

1. Elementary Anatomy and Physiology of Animals (VS-111) (2+1)

THEORY: Introduction to anatomy and physiology of musculoskeletal, digestive,
cardiovascular, respiratory nervous, excretory, male and female reproductive and
endocrine system, mammary glands of domestic animals. Body cavities and its related
organs, Basic physiological parameters of domestic animals.

PRACTICAL: Topographic anatomy and localization of various organs and body
systems in domestic animals, Recording of normal physiological parameters i.e. heart
rate, respiration rate and rectal temperature, Orientation to laboratory equipments.

6. Basic Clinical Pathology and Laboratory techniques (VS-215) (2+1)

THEORY Handling of laboratory equipment, glassware and chemicals, Cleaning
and sterilizing of laboratory wares, Basic microscopy principles, Blood collection
techniques, Use of anticoagulants, Urine collection, preservation and common physical
and chemical tests, Collection, preservation and dispatch of tissues for histopathology.

PRACTICAL: Opening of carcass, Collection, preservation and transportation of body fluids and tissues, Serum and plasma separation, Examination of blood for Hb, TLC, TEC, PCV, ESR, preparation of blood smear, Physical examination of urine.

FIRST YEAR	SEMESTER-II
------------	-------------

1. Elementary Pharmacology (VS-121) (2+1)

THEORY Introduction to Pharmacology, Nature and sources of drugs, Routes of drug administration, Dosage forms, Pharmaceulotical processes, Handling of hazardous substances, Common antiseptics and disinfectants, Weighing and measurement of drugs and solutions, Pharmacy calculations, Classification of important drugs, important indigenous drugs and contraindications for various medicines.

PRACTICAL Basic equipments/ instruments, Fundamental techniques in pharmacy, Dispensing and labeling of drugs, Preparation of solutions, ointments, lotions, tinctures, liniments, mixtures, electuaries etc. Drug dosage calculations.

1. Elementary Poultry Science (AS-121) (1+1)

THEORY Common breeds/strains of poultry, Different housing/rearing systems, Management of layer and broiler farm, Brooding, Hatchery routines, Cleaning of poultry sheds and litter management, Bio-security, Feeding and poultry rations, Introduction to common poultry diseases, Vaccination, Introduction to Quail and Turkey farming.

PRACTICAL: Hatchery operations, handling of birds, Vaccination of birds, Practical feeding, Watering, Cleaning of poultry sheds, Debeaking, Assisting in opening bird for post mortem and morbid material collection, preservation and dispatch for laboratory diagnosis.

1. Elementary Animal Husbandry Extension (AS-122) (1+1)

THEORY: Extension in rural welfare, Community development and rural Sociology, Principles and objectives of Veterinary and animal Husbandry extension, Qualities of extension workder, Extension teaching methods, Extension teaching methods, Extension and training programmes. Duties of Veterinary inspector/Para-Veterinarian, Role of media and communication tools, Prevention of Cruelty to animals and animal welfare concept.

PRACTICAL: Audio-visual aids, Awareness campaigns, Mass media, preparation of charts, leaflet, pamphlet, poster, flash cards etc. Participatory approach to animal husbandry awareness regarding thrust areas i.e. mortality immunization, neonatal care

and infant mortality, Nutritional programme including Hay and Silage making, Fodder development and animal management.

1. Elementary Animal Reproduction (VS-122) (2+1)

THEORY Female genitalia, Estrous cycle, Methods of heat detection, Gestation in domestic animals, Methods of pregnancy diagnosis, Abortion in domestic animals, Types of infertility in farm animals, Sexual health and herd health programme, Parturition, Care and management of dam and new born calf, Introduction to parturient problems in dairy animals, Pregnancy diagnosis.

PRACTICAL: Study of female genitalia of domestic animals, Heat detection, Rectal palpation for artificial insemination, care of instruments for gynaecological procedures, Record keeping, pregnancy diagnosis.

2. Elementary Andrology and Artificial insemination (VS-123) (2+1)

THEORY Study of male genitalia and gonads, Methods of semen collection and storage, Handling of fresh/frozen semen. Artificial insemination. Diseases transmitted through semen.

PRACTICAL Breeding bull management, Exercise and physical examination of breeding bulls. Collection of preputial washings, Preparation of artificial vagina, preparation of dummy/bull, handling of fresh and frozen semen. Artificial insemination, care, storage, sterilization of equipment's and record keeping.

3. Elementary Veterinary Epidemiology and Public Health (VS-124) (1+1)

THEORY Introduction to epidemiology, surveillance and monitoring of common seasonal diseases, public health considerations, common zoonosis and their management. Disposal of cadaver, concept of contagious, notifiable diseases and outbreaks, importance of animal disease monitoring, surveillance and diseases reporting.

PRACTICAL Attending to an outbreak of disease and assisting veterinarian in collection of material in outbreak of disease. Disposal of infectious material. Basic concept of disinfection and sterilization of infected site and material.

1. Introduction to Livestock Disease Management (VS-211) (2+1)

THEORY Introduction to common diseases of livestock and poultry. Hemorrhagic Septicemia. Black Quarter, Sheep pox, PPR, intertoxemia, Brucellosis, Tuberculosis, Foot and mouth disease, Rabies, Johne's disease, Glanders, Classical swine fever and metabolic diseases etc. Insecticide toxicities and poisonous plants, Preventive health measures for bacterial, viral and parasitic diseases in various species.

PRACTICAL Nursing care and client education in control and prevention of prevalent diseases. Testing of animals for TB/JD and Brucellosis, Testing of fodder samples for intake, Cyanide toxicity etc. Vaccination for different diseases in animals.

2. Elementary Parasitology (VS-211) (2+1)

THEORY Introduction to common parasites i.e. protozoa, trematodes, cestodes, nematodes and arthropods in livestock, Economic importance of parasitic diseases of livestock, Ecto and endo paracitocides.

PRACTICAL Demonstration of endo and ecto parasites, Demonstration of eggs/oocysts of parasites, Preparation of blood smears and common staining techniques for demonstration of blood protozoa, Procedure for collection and dispatch of clinical samples (blood, faecal and skin scrapping to parasitological laboratory).

3. Veterinary Hospital Maintenance (VS-212) (2+1)

THEORY Maintenance of case record. Basic accounting, Preparation of bills and maintenance of consumable and non-consumable stock of hospital. Preparation of animals for surgical operation, Care and maintenance of surgical and anesthetic equipment's, Assisting Veterinary Surgeon in post-operative care, Sterilization of operation theatre, Surgical pack and surgical instruments. Types of suture material.

PRACTICAL Maintenance of case record. Maintenance of stock register, Administration of drugs, Handling and care of instruments and equipments, Preparation of surgical pack, Sterilization of surgical instruments, Preparation of animals for surgical

procedure. Assisting Veterinary Surgeon in operative and post operative case, Sterilization of operation theatre, Handling of biomedical waste.

4. Elementary Veterinary Medicines (VS-213) (2+1)

THEORY Introduction to diseases of digestive, respiratory, musculo-skeletal, urinary and nervous system, Mastitis, Milk fever, ketosis, Haemoglobinuria, Deficiency diseases caused by minerals and vitamins.

PRACTICAL: Signs of healthy and diseased animals, methods of drenching, dipping, bathing, spray, first aid in animals. Recording of temperature, pulse, respiration rate, and examination of mucus membranes in healthy and diseased animals, intravenous, intramuscular, subcutaneous, oral and topical routes of drug administration, collection of milk sample, recording of ruminal motility, collection of ruminal liquor, passing of stomach tube.

5. Element of Wound care and Management (VS-214) (2+1)

THEORY Wound causes, Classification, Type of wound dressings, Basic concepts of abscess, ulcer, haematoma, cyst, tumour and hernia, Clinical use of antiseptic, fly repellents, anti maggot etc. First aid in sick animals including fracture cases. Management of bloat, hoof care.

PRACTICAL: Handling of animals, dressing of aseptic, infected and maggot wounds, use of sling, dressings and bandages of surgical wounds, first aid in traumatized animals.

SECOND YEAR	SEMESTER-IV
-------------	-------------

Last six months of training programme shall include hands on training at Veterinary Hospitals, livestock farms, sperm station and diagnostic labs.

Practical Training (AVS-221) 0+15(NC)

- a) Veterinary Hospital (At Sub-Division level/Polyclinics): 3 Months.
Training at hospitals include handling and dealing with sick animals, record keeping ;medication, post-operative management of surgical patients, vaccination, artificial insemination, preparation of solutions, lotions, tinctures, ointments, mixtures (carminatives, laxatives, purgatives, febrifuge etc.) Electuaries etc. Castration, use of dehorner, mouth gage, twitch, hoof

cutter, trochar & Cannula , Teat siphon, stomach tube, tagging and tattooing and all routine hospital jobs.

b) Livestock Farms: (2 Months)

(Cattle Farm, Poultry Farm, Sheep Farm-20 Days each)

Handling, management practices of Dairy farm, Poultry farm, Piggery farm, Rabbit farm, Sheep and goat farm. Care of pregnant animals, routine farm operations including vaccination, deworming, maintenance or records etc. Communication with farmers, organizing meetings etc. Extension programmes, Animal welfare camps.

c) Sperm Station 15-Days

Management of breeding bull, preparation of dummy, Artificial vagina preparation, preparation of extenders, handling of chilled and frozen semen, Storage of semen, handling of liquid nitrogen including its containers record keeping etc.

d) Diagnostic Laboratory: 15-Days

Handling of laboratory equipment, methods for sending various samples to laboratory for examination. Blood smear preparation, staining ; Complete blood cell count. Serum and Plasma separation; Preservation of serum, plasma and tissues. Urine examination; Preparation of smears for faecal examination.

Approved by the Government of Himachal Pradesh on the recommendation of Syllabus Revision Committee and conveyed by the Director, Animal Husbandry Department vide letter No. 6-5/69-Vety.-43(Syllabus) dated 24th September,2015.

RESERVATION OF SEATS

Admission to the Course shall be open to all eligible candidates subject to the reservation of seats as under:-

Vertical Reservation: Following percentage criteria (Main category) will be followed in the roster for the nomination of candidates:

i)	General	Gen.	55%
ii)	Scheduled Castes	SC	22%
